Premium Undermount Heavy Gauge Residential Sinks Offer Glamour and Function at a Very Affordable Price

THICKER IS BETTER

Artisan Manufacturing's premium quality sinks offer a remarkable 16 gauge thickness, 304 commercial grade, 18/10 stainless steel. This new sink Collection, with its high luster satin finish, is recognized to be durable, practical and very stylish, complementing the latest trends in kitchen design. The superior craftsmanship gives long-lasting beauty with resistance to both stains and corrosion.

Artisan offers 13 styles and 22 sizes with depths up to 10-1/8" and widths to meet every design and functional requirement, including single, double and extra deep bowls, offset sinks and bar sinks and designer grids. The proprietary V-Therm Shield™ provides sound deadening results that are superior, reducing noise and vibration, and offering thermal retention qualities. This Premium Collection is stylish, functional and affordably practical... perfect for those price sensitive and design-oriented kitchens. For more information, call 973-286-0080 or go to www.artisansinks.com.
