

Making style the focal point

Whether you want a traditional look or something more contemporary to bring your kitchen or bathroom to life, Artisan offers an array of sinks and faucets

Above: Undermounted sinks from Artisan Manufacturing are available in a selection of sizes. However, all sinks are made from quality stainless steel with V-Therm Shield™ for thermal retention and to deaden sound. Faucets are manufactured to equally high specifications.

Above right: The special finish on Artisan's single and double sinks gives them a long-lasting luster.

In most kitchen designs, the sink is located under the window or on the island – in the prime position – because it is the central focus of this part of the house.

It's important, therefore, that the sink you choose for your kitchen measures up to this tough specification for quality, performance and aesthetics. Artisan Manufacturing offers a wide range of quality sinks and faucets for the kitchen and bathroom.

The company's products are all made from high-quality materials to ensure they are fit for their role in the kitchen. Artisan's Premium and

Chef Pro sinks are in 304 stainless steel that is manufactured to a uniform 16-gauge thickness from top to bottom, for improved durability and stability. The proprietary V-Therm Shield™ provides thermal retention and superior sound deadening, reducing noise and vibration. Undermounted sinks from Artisan are available in double, single and extra-deep bowl styles to accommodate large pots and pans.

Equal care and attention has gone into manufacturing Artisan's faucets. There are 18 models for kitchen, bathroom and bar sinks. Finishes include chrome, antique bronze and

satin nickel, most on a solid brass construction, and with a durable ceramic disc cartridge and triple-satin nickel plating, these faucets are engineered for long service and are supplied complete with a limited lifetime warranty.

For details, contact Artisan Manufacturing, 237 Frelinghuysen Avenue, Newark, NJ 07114, phone (973) 286 0080, fax (973) 286 2886. Email: info@ArtisanStyles.com. Or visit the website: www.ArtisanStyles.com.

Above: The Chef Pro apron sink (CPAZ3621) is extra deep to easily fit large pots and pans. The high arched designer faucet (660) is a good complement. Artisan's motto is "Thicker is Better" for sinks that are more durable, stable and have a longer-lasting luster.

Left: Clean lines on this sink (AR3218) and faucet (AF600) from Artisan Manufacturing work well with the aesthetics of this contemporary kitchen.
